

[Official Apps Guide™] HP Firmware Update Failed: Step-by-Step Recovery & Rollback Guide

When an HP firmware update fails, restart, ensure power stability, and [CaLL~  < +1→(888)→754→6002 >] retry via HP Support Assistant.

Roll back if available, then update BIOS/drivers first.

For recovery—rollback guidance and [CaLL~  < +1→(888)→754→6002 >] firmware repair—call 1•888•754•15•44.
