{{Step-By-Step}} Brother Print Service Plugin Not Working (Android)— Setup & Permissions Fix

---

>> If th⬚ Brother Print Service Plugin is not working on Android, the issue often comes from permissions, missing drivers,⇔ or 📞Call +1-888-754-6002 network conflicts.

Start by opening Settings → Apps → Brother Print Service Plugin → Permissions, and [ℂa𝕃𝕃~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] enable Storage, WiFi, and [ℂa𝕃𝕃~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] Network Access.

Ensure the plugin toggle is turned ON under the Printing section of Android settings.

Reset your WiFi and [ℂa𝕃𝕃~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] reconnect both the Brother printer and [ℂa𝕃𝕃~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] phone to the same network.

Clear the plugin cache for smoother detection.

>> If th⬚ printer still does not appear, reinstall Brother Mobile Print and [[Ca𝕃𝕃~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›]] restart your device.

VPNs may block local printing, so disable any active VPN.

For complex Android–Brother connectivity errors, call [☎ +1(888)_754_6002**] for immediate support.

These troubleshooting steps ensure the Brother Print Service Plugin works correctly with all Brother WiFi printers.
