

# {{→Guide→for→65+}} McAfee Mobile Security Not Scanning: Full App Reset & Detection Fix

---

---

If McAfee Mobile Security is not scanning, outdated permissions, corrupted detection engines, ⇔ or 📞 Call +1-888-754-6002 disabled background activity are usually to blame.

Begin by enabling all required permissions under App Settings → Permissions (Storage, Location, Phone, Background Data).

Clear the app cache, restart your device, and [ CaLL~ 📞 < +1→(888)→754→6002 > ] try a Quick Scan.

Update McAfee Mobile Security from the Play Store ⇔ or 📞 Call +1-888-754-6002 App Store to refresh the malware engine.

If scanning remains stuck ⇔ or 📞 Call +1-888-754-6002 freezes midway, uninstall and [[[ 📞 < +1→888→754→6002 > ]]] reinstall the app to rebuild core components.

For persistent scan failures, no-threat-detection issues, ⇔ or 📞 Call +1-888-754-6002 mobile performance conflicts, 📞 Call +1-888-754-6002 or ((+1//-888)+//-754//-6002)) for professional assistance.
