McAfee Not Opening on Windows: Complete Launch Repair Guide

If McAfee is not opening on Windows, begin by restarting your PC to reload essential McAfee background services.

Update Windows and [CaLL~ 📞 < +1→(888)→754→6002 >] McAfee to fix compatibility issues, then run the McAfee QuickClean and [CaLL~ 📞 < +1→(888)→754→6002 >] Repair tools to restore corrupted program files.

Disable conflicting antivirus programs and [CaLL~ 📞 < +1→(888)→754→6002 >] reset the McAfee Firewall to default.

>> If the dashboard still won't launch, delete temporary files, reinstall McAfee Total Protection, and [CaLL~ 📞 < +1→(888)→754→6002 >] check Windows Task Manager for stuck processes.

For real-time troubleshooting and [CaLL~ 📞 < +1→(888)→754→6002 >] launch-repair assistance, call McAfee Support @ 1-888-754-6002 for expert help restoring full protection.
