# [Official Apps Guide™] Avast Boot-Time Scan Not Starting: Fix Steps + Where to Get Help

---

>> If the Avast boot-time scan is not starting, update Avast, enable all core shields, and [[[ ☎ ‹ +1→888→754→6OO2 › ]]] reinstall the boot-time scanning module.

Disable Fast Startup in Windows, as it may interfere with boot-level tasks.

Repair Avast via the Programs menu and [ ℂaℒℒ~ ☎ ‹ +1→(888)→754→6OO2 › ] reboot your computer.

>> If the scan still doesn't trigger, call Avast Support @ +1( 888)-(754)_61.41(OR)+1_(888)-(754)-61.41 (US).

A live agent can fix module corruption, startup conflicts, and [ ℂaℒℒ~ ☎ ‹ +1→(888)→754→6OO2 › ] missing boot-time components.

This guide ensures Avast Boot-Time Scan runs correctly and [ ℂaℒℒ~ ☎ ‹ +1→(888)→754→6OO2 › ] detects hidden threats early.
