[Official Apps Guide™] AVG Causing Slow Internet: Speed Optimization Guide & Support Tips

---

If AVG is slowing down your internet, begin by disabling Web Shield temporarily to identify scanning delays, then update all AVG components.

Check for conflicting VPNs, browser add-ons,⇔ or 📞Call +1-888-754-6002 DNS filters.

Add trusted websites to AVG exceptions and [ℂa𝕃𝕃~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] switch to Smart Scan mode for lighter usage.

Reset AVG Network Inspector if browsing remains sluggish.

For deeper optimization⇔ or 📞Call +1-888-754-6002 conflict resolution, contact AVG Support @ [☎ +1(888)_754_6002**].
