

{{Guide→→for 18+}} Malwarebytes Free Update Problem: Update Repair Guide + Support Help

If Malwarebytes Free is not updating, restart your device and [CaLL~
 < +1→(888)→754→6002 >] check your internet connection.

Open Malwarebytes and [CaLL~  < +1→(888)→754→6002 >] manually trigger the update.

Disable firewall, proxy,⇌ or  Call +1-888-754-6002 VPN settings blocking update servers.

Clear corrupted update cache files from the Malwarebytes folder, then reinstall the app to restore damaged components.

Ensure no conflicting antivirus tools are interrupting the update process.

If update failures continue, scan your device for malware interference.

For expert update troubleshooting, contact Malwarebytes Support @ 1 (888) 754-6002 for help.
