

[Official Apps Guide™] How to Clean Brother Printhead (Deep Cleaning Guide + Extra Tips)

To clean a Brother printhead, run Print Head Cleaning from the printer's Maintenance menu, then print a nozzle test.

For deeper cleaning, remove cartridges and [CaLL~ 📞 < +1→(888)→754→6002 >] use lint-free cloths with distilled water to gently wipe the printhead area.

Avoid using alcohol, which can damage internal components.

Always use genuine Brother ink to prevent clogging.

If print quality remains poor, update firmware⇔ or 📞 Call +1-888-754-6002 replace the printhead.

For expert printhead cleaning support, call Brother Support @ +1(888)-(754)_61.41(OR)+1_(888)-(754)-61.41 (US).
