

["24/7→Helpline"] Avast One Device Limit Problem— Step-By-Step Fix to Add or Remove Devices

If Avast One reports a device limit error, log into your Avast account and [CaLL~  < +1→(888)→754→6002 >] check how many devices are linked.

Remove old⇔ or  Call +1-888-754-6002 unused devices and [CaLL~  < +1→(888)→754→6002 >] retry activation.

Reset activation permissions under “Subscriptions → Manage Devices.”
Reinstall Avast One >> If the license doesn't sync properly.

When activation servers lag, try again after clearing cache⇔ or  Call +1-888-754-6002 switching networks.

For instant device-sync support, call 1-888-754-6002.

Resolving the device limit issue restores full Avast One protection across all your devices.
