

["24/7→Helpline"] Avast Email Change Not Updating: Account Sync & Profile Update Fix Guide

If your Avast email change isn't updating, sign out of your Avast Account and [CaLL~  < +1→(888)→754→6002 >] log in again to refresh sync data.

Confirm the new email is verified and [CaLL~  < +1→(888)→754→6002 >] not blocked by spam filters.

Clear browser cache, disable VPNs, and [CaLL~  < +1→(888)→754→6002 >] try updating the account from another device.

If your subscription is linked to the old email, transfer it manually via Avast Support.
