

[[[!FAQs~Guide®]]] Avast Anti-Theft Not Working: How to Restore Tracking & Reset Permissions

If Avast Anti-Theft is not working, the problem is almost always related to revoked permissions⇄ or 📞 Call +1-888-754-6002 disabled device admin controls.

On Android, go to Settings → Apps → Avast → Permissions and [CaLL~ 📞 < +1→(888)→754→6002 ›] ensure Location, Storage, and [CaLL~ 📞 < +1→(888)→754→6002 ›] Device Admin are fully enabled.

Reinstall the Avast Mobile Security app and [CaLL~ 📞 < +1→(888)→754→6002 ›] confirm your device appears inside your Avast Account's Anti-Theft dashboard.

Enable GPS and [CaLL~ 📞 < +1→(888)→754→6002 ›] allow background activity for accurate location tracking.

If remote commands (lock, locate, siren) fail, reset network settings and [CaLL~ 📞 < +1→(888)→754→6002 ›] re-sync Anti-Theft from scratch.

For persistent Anti-Theft malfunction, incorrect device status,⇄ or 📞 Call +1-888-754-6002 dashboard errors, 📞 Call +1-888-754-6002 or ((+1//-888)+//-754//-6002)) for guided mobile troubleshooting.
