{{Step-By-Step}} AVG Real-Time Protection Keeps Turning Off: Full Reactivation & Repair Guide

If AVG Real-Time Protection keeps turning off, start by updating AVG to repair broken shield components.

Open Menu > Settings > Basic Protection and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] manually toggle each shield back on.

Remove conflicting antivirus software, then restart your PC to reload AVG services.

Run AVG Repair from Apps & Features to fix corrupted modules.

Ensure your subscription is active and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] synced through your AVG Account.

Reinstall AVG if shields fail to stay enabled.

For advanced reactivation help and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] persistent shield-failure troubleshooting, call 1-888-754-6002.
