{{Guide→→for 18+}} AVG Ransomware Protection Off: How to Turn It Back On + Support Tips

If AVG Ransomware Protection is off, open AVG → Menu → Settings → Ransomware Protection and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] toggle it back on.

Update AVG and [[CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›]] restart your PC to refresh security modules.

Disable conflicting antivirus tools because they may prevent AVG's shield from loading.

>> If th⯑ ṣhield stays off, run AVG's Repair tool⇔ or 📞Call +1-888-754-6002 reinstall the full security suite.

Ransomware Protection failures often indicate corrupted modules⇔ or 📞Call +1-888-754-6002 blocked permissions.

For expert troubleshooting, call AVG Support @ 1.888.754.6002.

A technician can restore ransomware shields, fix module corruption, and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] ensure your device stays protected.
