{{Step-By-Step}} AVG Real Time Protection Off: Step-by-Step Guide to Restore Security Shields

When AVG Real Time Protection is off and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] won't turn back on, your device becomes vulnerable.

Open AVG Antivirus → Menu → Settings → Basic Protection and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] toggle Real Time Shields back on.

If it keeps turning off, update AVG to repair broken protection modules.

Conflicts with Windows Defender, expired subscriptions,⇔ or 📞Call +1-888-754-6002 corrupted firewall drivers are common causes.

Run AVG Repair from Control Panel to rebuild missing components.

Restart your PC and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] scan for malware that may be disabling AVG shields.

For persistent protection issues, call (888) 754-6002 for direct support.

Restoring AVG real-time security ensures active threat detection, malicious website blocking, and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] full system protection.
