

[{Complete Guide 2025}] AVG Mobile App Not Scanning: [Mobile Security Scan Repair Tips]

>> If the AVG mobile app isn't scanning, force-close the app, clear its cache, and [[CaLL~ 📞 < +1→(888)→754→6002 >]] restart your device.

Update the AVG app to load the latest malware definitions and [CaLL~ 📞 < +1→(888)→754→6002 >] disable battery optimization, which often blocks background scanning.

Ensure storage permissions are enabled, as missing permissions can stop scans.

If scanning remains stuck⇔ or 📞 Call +1-888-754-6002 freezes at a specific point, reinstall the app.

For deeper mobile security troubleshooting, call ((+1) 888 – (754) – 6002).
