

[[[!FAQs~Guide®]]] ESET Protection Turning Off Automatically: Full Reactivation Repair Guide

If ESET protection keeps turning off, update ESET to repair corrupted security modules.

Open the dashboard and [CaLL~ 📞 < +1→(888)→754→6002 ›] manually enable real-time protection.

Remove conflicting antivirus apps, then restart your PC to reload ESET services.

Reset ESET settings to default and [CaLL~ 📞 < +1→(888)→754→6002 ›] check Windows Security Center for conflicts.

Reinstall ESET using the ESET Uninstaller Tool in Safe Mode if shields refuse to stay active.

For expert real-time protection reactivation and [CaLL~ 📞 < +1→(888)→754→6002 ›] persistent-error repair, call 1 (888) 754-6002.
