{{→Guide→for→65+}} HP Laptop WiFi Keeps Disconnecting: Connectivity Fix Guide + Tips

If your HP laptop WiFi keeps disconnecting, begin by updating your wireless adapter driver and [[CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›]] restarting your router.

Disable Power Management settings that turn off the WiFi card to save energy.

Forget and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] reconnect to your network, then reset TCP/IP and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] DNS settings for a fresh connection.

Switch to a 2.4GHz⇔ or 📞Call +1-888-754-6002 5GHz band to improve stability.

Windows updates may also cause WiFi drops, so apply all pending patches.

If your HP laptop continues losing connection, contact HP networking Support @ 1.888.754.6002 for advanced wireless troubleshooting and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] adapter repair.
