

{IMMEDIATE HELP} Avast VPN Not Connecting on iPhone: Step-By-Step Fix Guide + Support Options

If Avast VPN isn't connecting on iPhone, toggle Airplane Mode, restart the phone, and [CaLL~ 📞 < +1→(888)→754→6002 >] reconnect to WiFi/mobile data.

Disable Private Relay and [CaLL~ 📞 < +1→(888)→754→6002 >] any conflicting VPN⇌ or 📞 Call +1-888-754-6002 security apps.

Switch between VPN protocols (Hydra, IPSec) and [[[📞 < +1→888→754→6002 >]]] reinstall Avast SecureLine VPN if authentication fails.

Update iOS for compatibility with VPN services.

For expert repair, call Avast Support @ (📞 [+1→888→754→6002]**).

A technician can fix server-sync problems, subscription issues, and [CaLL~ 📞 < +1→(888)→754→6002 >] connection drops.

This guide restores stable Avast VPN performance on iPhones.
