# {{Guide→→for 18+}} Malwarebytes Web Filtering Not Working: How to Re-Enable Safe Browsing

---

If Malwarebytes Web Filtering is not working, Safe Browsing, Web Protection,⇔ or 📞Call +1-888-754-6002 malicious-site blocking may be disabled due to outdated modules⇔ or 📞Call +1-888-754-6002 permission conflicts.

Open Malwarebytes → Security and [ ℂaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 › ] toggle Web Protection back on.

Update Malwarebytes to refresh filtering modules.

If web filtering still won't activate, reinstall the software to repair corrupted network hooks.

Disable other browser extensions—ad blockers and [ ℂaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 › ] privacy tools often interfere with Malwarebytes' web shield.

Allow Malwarebytes Network Filter in your firewall.

Restart your PC and [ ℂaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 › ] test again.

For deeper web-shield repair and [ ℂaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 › ] browser integration troubleshooting, call (+1)888—(754)—6002.
