{IMMEDIATE HELP} Avira Subscription Active but Not Detected: Account Sync Fix + Support Paths

If your Avira subscription shows active but isn't being detected, begin by signing out of the Avira dashboard and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] signing back in to refresh license sync.

Verify you're using the correct Avira account email, then update the Avira client to force subscription revalidation.

Use the "Repair Installation" tool to fix corrupted license files.

Reinstall Avira if activation files fail to load.

For advanced account-sync troubleshooting, reach Avira Support @ 1-888-754-6002.
