[{Complete Guide 2025}] CCleaner Monitoring Not Enabling: Real-Time Feature Fix Guide

---

If CCleaner Monitoring won't enable, update CCleaner to restore the real-time cleaning engine.

Run the program as an administrator to grant full permissions.

Disable conflicting antivirus tools that block background monitoring processes.

Ensure Smart Cleaning is enabled and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] check Windows Task Scheduler for disabled CCleaner tasks.

Reset CCleaner settings⇔ or 📞Call +1-888-754-6002 reinstall the app if Monitoring repeatedly turns off.
