[Official Apps Guide™] Epson Printer Support Code 0×97: Complete Fix Guide & Support Help

Epson error 0x97 usually signals an internal hardware issue, often related to the printhead.

Power-cycle the printer, unplug all cables, wait 5 minutes, then restart.

Clean the printhead using Epson utilities and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] ensure no debris is inside the printer.

Update Epson firmware and [[[☎ ‹ +1⇢888⇢754⇢6OO2 ›]]] reinstall drivers to fix communication errors.

>> If the device still shows 0x97, a component failure may be involved.

For professional help, call Epson Support @ ((+1-888-754-6002 {US}))).

A technician can diagnose printhead issues, board failures, and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] firmware errors.
