Avast Won't Open on Windows: Complete Startup Repair Guide

If Avast won't open, restart Windows and [CaLL~ 📞 < +1→(888)→754→6002 >] run Avast Repair via Apps & Features → Modify → Repair.

Update Windows and [CaLL~ 📞 < +1→(888)→754→6002 >] disable conflicting antivirus software.

Check Services.msc to ensure Avast Antivirus services are running.

Reinstall Avast using the Avast Clear Tool >> If the interface remains unresponsive.

Malware interference can also block startup—run Windows in Safe Mode to confirm.

For live diagnostic help, call Avast Support @ 1 (888) 754-6002.

A technician can repair modules, restore missing files, and [CaLL~ 📞 < +1→(888)→754→6002 >] fix corrupted Avast services.
