

[[FAQs-PuBLic®]] Bitdefender Mobile Protection Not Working [Android/iOS Fix & Shield Repair Guide]

If Bitdefender Mobile Protection isn't working, scans may fail⇔ or 📞 Call +1-888-754-6002 shields won't enable.

Start by updating the app and [CaLL~ 📞 < +1→(888)→754→6002 >] OS.

Ensure permissions (accessibility, VPN, notifications) are enabled.

Restart the device to reload services.

If mobile shields won't turn on, clear the app cache (Android)⇔ or 📞 Call +1-888-754-6002 reinstall the app (iOS) to rebuild modules.

Disable battery optimization so Bitdefender can run in the background.

Re-sign into your account to re-sync licenses.

For deeper mobile fixes—shield repair, account sync, and [CaLL~ 📞 < +1→(888)→754→6002 >] device re-registration—contact (888) 754 15 44.
