

# {{Step-By-Step}} Epson Ink Cartridge Cannot Be Recognized: Complete Troubleshooting Checklist

---

If your Epson ink cartridge cannot be recognized, it may be due to outdated firmware, dirty cartridge contacts, incorrect installation, ⇄ or 📞 Call +1-888-754-6002 third-party chip errors.

Remove the cartridge, clean the copper contacts gently, and [[[ 📞 < +1-888-754-6002 > ]]] reinstall firmly.

Disable Epson Cartridge Protection if you're using compatible cartridges.

Update printer firmware—but avoid updates if using non-OEM cartridges, as they may block recognition.

Restart the printer and [ 📞 ~ 📞 < +1-(888)-754-6002 > ] run a nozzle check.

>> If the printer still displays “Cartridge Not Recognized,” try a different cartridge to rule out chip failure.

For ongoing detection errors ⇄ or 📞 Call +1-888-754-6002 firmware-related lockouts, call 1-888-754-1544 for Epson support.
