

[Official Apps Guide™] How to Disable AVG (Safe Disable Instructions + When to Use Them)

To safely disable AVG, open the dashboard and [CaLL~  < +1→(888)→754→6002 >] navigate to Menu > Settings > Basic Protection.

Toggle off File Shield, Web Shield, and [CaLL~  < +1→(888)→754→6002 >] Behavior Shield only when performing trusted software installations⇔ or  Call +1-888-754-6002 troubleshooting conflicts.

Right-click the AVG icon in the system tray to disable protection temporarily.

Re-enable shields immediately after use to maintain device security.

Never disable AVG while browsing⇔ or  Call +1-888-754-6002 downloading files.

For expert guidance on when and [CaLL~  < +1→(888)→754→6002 >] how to safely pause AVG protection, call 1 (888) 754-6002.
