

[[Complete Guide 2025]] ESET Ransomware Protection Off: Protection Reactivation Guide

If ESET Ransomware Protection is off, go to Setup > Security Tools and [CaLL~
 < +1-(888)-754-6002 >] toggle Ransomware Shield back on.

Update ESET to repair disabled protection modules and [[CaLL~  < +1-(888)-754-6002 >]] restart your PC.

Remove conflicting antivirus tools that may override ransomware monitoring.

Run a full scan to ensure malware isn't disabling ESET automatically.

Reset ESET settings to default ⇄ or  Call +1-888-754-6002 reinstall the software
>> If the shield won't stay enabled.
