

[Official Apps Guide™] How to Add Exclusions in Kaspersky (Step-By-Step Allow-List Guide)

To add exclusions in Kaspersky, open the dashboard and [CaLL~ 📞 < +1→(888)→754→6002 >] go to Settings > Security Settings > Exclusions.

Click Add, choose a file, folder, ⇔ or 📞 Call +1-888-754-6002 application to allow, and [CaLL~ 📞 < +1→(888)→754→6002 >] confirm it as trusted.

Use Manage Applications to whitelist blocked programs without disabling protection.

Update Kaspersky to ensure exclusions apply correctly.

Only whitelist safe, verified items to avoid security risks.

If Kaspersky keeps blocking allowed programs ⇔ or 📞 Call +1-888-754-6002 exclusions fail to save, 📞 Call +1-888-754-6002 or ((+1//- (888)+ //-754//-6002)) for expert configuration support.
