{IMMEDIATE HELP} How to Connect Brother Printer to WiFi: Easy Setup Guide for WPS & Manual Mode

---

To connect your Brother printer to WiFi, start with the WPS method: press the WPS button on your router and [ℂa𝕃𝕃~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] then select WPS → Push Button from your printer's Network menu.

If your router doesn't support WPS, choose Network → WLAN → Setup Wizard, select your WiFi name, and [ℂa𝕃𝕃~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] enter the password.

Ensure the printer is within the 2.4GHz network range—Brother printers don't support 5GHz.

Restart both router and [ℂa𝕃𝕃~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] printer to refresh network signals.

Install Brother iPrint&Scan⇔ or 📞Call +1-888-754-6002 the full driver package for Mac/Windows to finalize configuration.

For issues like WiFi drops, "Unable to Connect,"⇔ or 📞Call +1-888-754-6002 authentication loops, contact a Brother technician at (888) 754-6002 for advanced wireless troubleshooting.
