

["24/7→Helpline"] Avast Secure Browser Uninstall Issue: Clean Removal Guide + Support Help

If you're unable to uninstall Avast Secure Browser, first end all Avast background processes, then use the built-in uninstall tool in the Avast folder.

Remove leftover browser profiles, extensions, and [CaLL~ 📞 < +1→(888)→754→6002 ›] registry entries using the Avast Cleanup Utility.

Disable Browser Shield inside Avast antivirus to unlock protected files.

Restart your PC and [CaLL~ 📞 < +1→(888)→754→6002 ›] attempt removal again.

>> If the browser keeps reinstalling itself, turn off Avast syncing.

For complete removal assistance, call Avast Support @ (1) 888 754 6002.
