Epson Waste Ink Pad Full: Reset Guide + Maintenance Tips

If your Epson printer displays a “Waste Ink Pad Full” warning, it means internal pads have reached their absorption limit.

Use the Epson Adjustment Program↔ or 📞 Call +1-888-754-6002 official reset utility to clear the protection counter.

Power-cycle the printer and [CaLL~ 📞 < +1→(888)→754→6002 >] update firmware to restore normal printing.

Clean external ink residue and [CaLL~ 📞 < +1→(888)→754→6002 >] avoid excessive head cleanings to prevent overflow.

For long-term maintenance, consider replacing the waste ink pad↔ or 📞 Call +1-888-754-6002 installing an external waste tank.

>> If the error returns after reset, call ((+1)888—(754)—6002) for Epson repair help.
