{{→Guide→for→65+}} Epson Printer Not Feeding Paper— Complete Troubleshooting Blueprint

---

If your Epson printer is not feeding paper, the issue is usually linked to clogged rollers, wrong paper type,⇔ or 📞Call +1-888-754-6002 jammed sheets.

Start by powering off the printer and [CaLL~ ☎ ‹ +1→(888)→754→6OO2 ›] removing stuck paper from the rear feed slot.

Clean the pickup rollers using a lint-free cloth lightly dampened with water.

Make sure the paper stack is aligned, not curled, and [CaLL~ ☎ ‹ +1→(888)→754→6OO2 ›] within the supported thickness.

Reset the printer through the Epson utility and [CaLL~ ☎ ‹ +1→(888)→754→6OO2 ›] update the printer firmware to correct feed-related glitches.

Using non-genuine paper can cause repeated feed failures, so switch to Epson-recommended media.

>> If the printer still won't grab paper, contact certified Epson Support @ [☎ +1(888)_754_6002**] for advanced mechanical guidance.

Following this troubleshooting blueprint restores smooth, consistent paper feeding.
