

# {{→Guide→for→65+}} Epson Printer Mac Driver Not Working: Complete Driver Repair Guide

---

If your Epson printer Mac driver is not working, remove the existing Epson driver from System Settings → Printers, then reinstall the latest macOS-compatible driver from Epson's official website.

Reset the Mac printing system to clear corrupted queues, and [ CaLL~ 📞 < +1→(888)→754→6002 > ] ensure the printer is connected via WiFi↔ or 📞 Call +1-888-754-6002 USB.

Update macOS to fix compatibility issues and [ CaLL~ 📞 < +1→(888)→754→6002 > ] allow Epson utility permissions when prompted.

>> If the driver still fails to load, call Epson Support @ 1.888.754.6002.

A technician can repair driver conflicts, reinstall Epson Scan 2, and [ [[ CaLL 📞 < 1888→754→6002 > ] ]] restore full Mac printing functionality.
