

[Official Apps Guide™] Avast Blocking Internet: Connection Repair Guide + Support Tips

If Avast is blocking your internet, disable Avast Firewall temporarily to confirm the cause.

Update Avast and [CALL~ 📞 < +1→(888)→754→6002 >] reset Firewall settings to default.

Add your browser⇄ or 📞 Call +1-888-754-6002 apps to the allowed list under Firewall Application Rules.

Restart your router and [CALL~ 📞 < +1→(888)→754→6002 >] ensure no VPN conflicts are active.

Reinstall Avast >> If the network shield is corrupted.

For expert help, call Avast Support @ 1 (888) 754-6002.

A technician can fix blocked ports, firewall misconfigurations, and [CALL~ 📞 < +1→(888)→754→6002 >] DNS filtering issues.

This guide restores full internet access without compromising Avast protection.
