

[[[!FAQs~Guide®]]] AVG Turning Off Automatically: Real-Time Protection Reactivation Guide

If AVG keeps turning off automatically, update AVG to repair broken real-time protection modules.

Restart your device and [CaLL~ 📞 < +1→(888)→754→6002 ›] ensure no conflicting antivirus programs are installed.

Turn on File Shield, Behavior Shield, and [CaLL~ 📞 < +1→(888)→754→6002 ›] Web Shield manually.

Reset AVG to default settings↔ or 📞 Call +1-888-754-6002 reinstall the app if shields won't stay active.

Check for malware infections preventing AVG from running properly.

For full real-time protection reactivation and [CaLL~ 📞 < +1→(888)→754→6002 ›] stability repair, 📞 Call +1-888-754-6002 or ((+1//-888)+//-754//-6002)).
