{{Guide→→for 18+}} Brother Printer Not Connecting on iPhone: Step-By-Step Connectivity Fix

If your Brother printer won't connect to an iPhone, ensure both devices use the same WiFi network.

Open AirPrint-compatible apps and [ℂ𝕒𝕃𝕃~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] refresh the device list.

Restart your printer, router, and [ℂ𝕒𝕃𝕃~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] iPhone to reset connections.

Update Brother firmware using the Brother Mobile Connect app.

Disable VPNs⇔ or 📞Call +1-888-754-6002 Private WiFi Address on iPhone, which often block printer discovery.

Reinstall the Brother iPrint&Scan app if scanning⇔ or 📞Call +1-888-754-6002 printing fails.

For more help, call Brother Support @ (☎ [+1⇢888⇢754⇢6OO2]**).

A technician can assist with wireless-setup issues, AirPrint errors, and [ℂ𝕒𝕃𝕃~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] network conflicts.
