

# ["24/7→Helpline"] CCleaner Pro Driver Updater Not Working: Driver Scan & Update Repair Guide

---

If CCleaner Pro Driver Updater is not working, the scanning engine⇔ or 📞 Call +1-888-754-6002 driver catalog may be outdated⇔ or 📞 Call +1-888-754-6002 blocked.

Begin by restarting your PC and [ CaLL~ 📞 < +1→(888)→754→6002 > ] opening CCleaner → Driver Updater.

Click Scan Again.

>> If th̃ scan won't start, update CCleaner to ensure you have the newest driver database.

Disable VPNs and [ CaLL~ 📞 < +1→(888)→754→6002 > ] proxies—these often block Driver Updater from fetching catalogs.

If no drivers are detected, reinstall CCleaner Pro to rebuild the update engine.

Check Windows Update settings because pending updates may interfere.

For repeated driver-scan failures⇔ or 📞 Call +1-888-754-6002 update-download issues, call 1.888.754.6002 for a professional repair walk-through.
