

["24/7→Helpline"] Avast Real-Time Protection Off: Step-By-Step Reactivation & Support Options

If Avast Real-Time Protection is off, update Avast, restart your PC, and [CaLL~  < +1→(888)→754→6002 >] enable Core Shields under Protection settings.

Conflicting antivirus tools⇔ or  Call +1-888-754-6002 corrupted modules may disable real-time scanning.

Run the Avast Repair tool to rebuild broken components.

Ensure your system date/time is correct to prevent signature errors.

>> If th̃□. shields still won't activate, call Avast Support @ ((+1-888-754-6002 {US}))).

A technician can repair shield failures, service conflicts, and [CaLL~  < +1→(888)→754→6002 >] engine corruption.

This guide restores full Avast real-time protection.
