

# [{Complete Guide 2025}] CCleaner Tray Icon Not Loading: Quick Fix Guide & Support Help

---

>> If the CCleaner tray icon is not loading, restart CCleaner, then check Task Manager to confirm CCleaner64.exe is running.

Enable “Run CCleaner at Startup” to reload the tray service.

Reinstall CCleaner >> If the system tray module becomes corrupted.

Windows Explorer restarts also fix missing tray icons—open Task Manager → Restart Windows Explorer.

Disable conflicting optimization apps that may block CCleaner’s tray launch.

>> If the problem persists, call CCleaner Support @ 1.888.754.6002.

A technician can repair startup services, registry conflicts, and [ CALL~  < +1-->(888)-->754-->6002 > ] notification-area issues.
