

{{Guide→→for 18+}} Avast Free Version Stuck Updating: Update Loop Fix Guide + Extra Tips

If Avast Free is stuck updating, restart your PC and [CaLL~ 📞 < +1→(888)→754→6002 ›] run an update check manually.

Clear Avast update cache, disable VPN/proxy, and [CaLL~ 📞 < +1→(888)→754→6002 ›] ensure your network isn't blocking update servers.

Repair Avast through the Control Panel to replace damaged update files.

If definitions freeze at a specific percentage, reinstall Avast using the Avast Uninstall Utility.

For persistent update-loop issues⇔ or 📞 Call +1-888-754-6002 installation repair, call [📞 +1(888)_754_6002**].
