[{Complete Guide 2025}] HP Printer Color Not Working: No-Color Print Fix (Step-By-Step)

If your HP printer is not printing color, begin with a nozzle check from HP Printer Tools.

Clean printheads manually⇔ or 📞Call +1-888-754-6002 with automatic cleaning cycles.

Ensure color cartridges have proper ink flow and [ℂ𝕒𝕃𝕃~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] chips are detected correctly.

Disable "Print in Grayscale" and [ℂ𝕒𝕃𝕃~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] verify color settings in Windows/Mac print dialog.

Update HP drivers using HP Smart⇔ or 📞Call +1-888-754-6002 HP Support Assistant.

If colors still fail, align the printhead and [ℂ𝕒𝕃𝕃~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] reset the printer to remove stored color profiles.

For deeper color recovery help, call 1.888.754.6002.

Restoring ink flow ensures accurate color printing.
