

[Official Apps Guide™] How to Disable Bitdefender (Safe Turn-Off Guide + When to Use It)

To safely disable Bitdefender, open the dashboard → Protection and [CaLL~ 📞 < +1→(888)→754→6002 >] toggle off Antivirus, Advanced Threat Defense, and [CaLL~ 📞 < +1→(888)→754→6002 >] Firewall modules.

Use the Disable Until Restart option for temporary tasks like software installations.

Avoid disabling protection permanently, as it may expose your device to threats.

If Bitdefender won't turn off due to policy restrictions↔ or 📞 Call +1-888-754-6002 corrupted modules, reinstalling the suite may help.

For guided assistance, contact Bitdefender Support @ 1 (888) 754-6002.

A technician can help disable modules safely and [CaLL~ 📞 < +1→(888)→754→6002 >] resolve feature lock issues.
