

[{Complete Guide 2025}] Canon Printer Error 1700: Complete Error Reset & Repair Guide

Canon Error 1700 indicates the ink absorber is nearly full.

Begin by resetting the printer using the Stop/Reset + Power button sequence, then access the maintenance menu to reset the absorber counter.

Update your Canon drivers and [[CaLL~  < +1→(888)→754→6002 >]] restart the printer to clear the warning.

If prints show smudging, clean the absorber area⇔ or  Call +1-888-754-6002 schedule a replacement.

Avoid running multiple deep clean cycles to prevent ink overflow.

For persistent Error 1700 messages⇔ or  Call +1-888-754-6002 hardware-level absorber replacement guidance, call Canon Support @ +1-888-754-6002.
