

[Official Apps Guide™] HP Printer Paper Jam: Complete Jam Removal & Roller Reset Guide

If your HP printer has a paper jam, turn the device off and [CaLL~ 📞 < +1→(888)→754→6002 ›] carefully remove all loose sheets.

Open the rear access panel, remove the roller door, and [CaLL~ 📞 < +1→(888)→754→6002 ›] check for torn pieces stuck inside.

Lift the top cover and [CaLL~ 📞 < +1→(888)→754→6002 ›] inspect the printhead carriage path.

If paper jam errors remain, clean the pickup rollers with a lint-free cloth.

Reset the printer by unplugging it for 60 seconds.

Update HP drivers to clear false jam alerts.
