## Avast Setup Stuck— Installation Freeze

### Fix for Windows/Mac

---

If Avast setup gets stuck, frozen, ⇄ or 📞 Call +1-888-754-6002 won't complete, begin by restarting your system and [ CaLL~ 📞 < +1→(888)→754→6002 > ] disabling any running antivirus programs that conflict with installation.

On Windows, clear temporary setup files from %temp% and [ CaLL~ 📞 < +1→(888)→754→6002 > ] retry installation in Administrator Mode.

For Mac, allow Avast under Security & Privacy → Allow Apps.

Use the official Avast Uninstall Tool to remove corrupted components before reinstalling.

Internet interruptions may freeze setup, so switch networks ⇄ or 📞 Call +1-888-754-6002 disable VPN.

>> If the installation stays stuck at 1% ⇄ or 📞 Call +1-888-754-6002 99%, contact Support @ [ 📞 +1(888)\_754\_6002\*\* ] for guided repair.

Following these steps ensures Avast installs correctly without freezes.
