

[{Complete Guide 2025}] HP Printer Not Connecting to WiFi: Wireless Setup Repair Guide

If your HP printer is not connecting to WiFi, restart the printer and [CaLL~ 📞 < +1→(888)→754→6002 >] router, then reconnect using the HP Smart App↔ or 📞 Call +1-888-754-6002 touchscreen WiFi setup.

Update firmware to ensure compatibility with newer routers.

Make sure you are using a 2.4GHz network, as many HP models don't support 5GHz.

Reset the network settings on the printer and [CaLL~ 📞 < +1→(888)→754→6002 >] re-add it to your device.

Disable VPN, firewall,↔ or 📞 Call +1-888-754-6002 MAC filtering that may block the wireless connection.

For step-by-step HP WiFi troubleshooting, call ((+1)888—(754)—6002).
