{{→Guide→for→65+}} AVG PC TuneUp Features Not Activating— Activation Patch & Login Fix

If AVG PC TuneUp features are not activating, the issue usually stems from an expired license, account sync failure,⇔ or 📞Call +1-888-754-6002 corrupt installation files.

Start by logging into your AVG MyAccount and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] verifying that your subscription is active.

Re-enter your activation code under Menu → My Subscriptions → Enter Activation Code.

If features remain locked, run the AVG Repair Tool to patch broken components.

Clear cache, restart your PC, and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] sign back in to refresh subscription sync.

You can also reinstall AVG TuneUp for a clean activation rebuild.

Disable VPN⇔ or 📞Call +1-888-754-6002 proxy to ensure proper license communication with AVG servers.

If activation errors persist, call 1.888.754.6002 for instant AVG subscription repair support.
