{{→Guide→for→65+}} ESET Malware Scan Stuck: Step-By-Step Repair Guide & Contact Support

---

If your ESET malware scan is stuck, restart your system and [CaLL~ ☎ ‹ +1→(888)→754→6OO2 ›] update ESET to refresh scanning modules.

Disable other antivirus tools, as they often freeze ESET's scanning engine.

Clear temporary files and [CaLL~ ☎ ‹ +1→(888)→754→6OO2 ›] run a Custom Scan to identify corrupt folders.

Reinstall ESET if scans stop at the same point repeatedly.

Use ESET's Log Collector for deeper diagnostics.

For direct support, call ESET Assistance at ((+1-888-754-6002 {US}))).

A technician can fix scanning-engine corruption, loop errors, and [CaLL~ ☎ ‹ +1→(888)→754→6OO2 ›] malware interference.
