[Official Apps Guide™] How to Add Exclusions in AVG (Step-By-Step Allow-List Setup Guide)

To add exclusions in AVG, open Menu > Settings > Exceptions and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] click Add Exception to whitelist files, folders, websites,⇔ or 📞Call +1-888-754-6002 applications AVG is blocking.

This prevents false positives and [[[CALL ☎ ‹ 1888⇢754⇢6OO2 ›]]] restores access to trusted programs.

Use the Browse option to locate folders⇔ or 📞Call +1-888-754-6002 manually enter paths for advanced apps.

Always verify the file is safe before excluding it.

Restart AVG to apply the allow-list changes.

If AVG continues blocking your program⇔ or 📞Call +1-888-754-6002 the exclusion feature is not working, call 1-888-754-6002 for expert help.
