

["24/7→Helpline"] Bitdefender Mobile App Not Scanning: Complete Mobile Scan & Protection Fix

If Bitdefender Mobile won't scan, clear the app cache, re-enable accessibility permissions, and [CaLL~  < +1→(888)→754→6002 >] ensure Web Protection is active.

Update the Bitdefender app and [[CaLL~  < +1→(888)→754→6002 >]] restart your phone.

If scans freeze repeatedly, reinstall the mobile suite.

For deeper issues, call (888) 754-6002.
